

## Addressing the Bigger Question on Your Mind

When will things get back to normal?

### Do we really want to go back to NORMAL?

In Tuesday's Better Future Web Series, Auxano Senior Lead Navigators David Putman and Bryan Rose introduced Part 1 of the Vision Recovery Process.

There is a difference in “getting back to normal” and “getting back to normalcy” in your church. We are now in a season in which church leaders can consider, as we all yearn for normalcy, the potential of instilling a “new normal” within our congregations.

- What if our families could stay connected?
- What if our discipleship efforts could remain decentralized and outward focused?
- What if *being* the Church could continue to outpace *doing* Church?

You can catch Part 2 of the webinar on Thursday, April 16 at 11am EDT/10am CDT.
