

Bringing Boomers and Millennials Together

Breakthrough Ideas with Dave Rhodes:

- The physical location of your church and the mission of your church should be inseparable.
- Moving to the fringe of the organization, instead of the center, empowers younger generations to step up and lead.
- Boomers and Millennials CAN get along; however, each generation must take a different approach to the other.
- You cannot multiply the church at the rate of possible opportunity, only at the rate of people development.
- Are you working to rest or resting to rest? Why this matters.
