

Do You Want Normal or Normalcy?

There is a difference in “getting back to normal” and “getting back to normalcy” in your church.

The latter is a restoration of the rhythms and relationships found in gathering together as the Church once again. The former is a restoration of the habits and practices of doing Church as it was pre-COVID-19.

We are now in a season in which church leaders can consider, as we all yearn for normalcy, the potential of instilling a “new normal” within our congregations. What if our families could stay connected? What if our discipleship efforts could remain decentralized and outward focused? What if *being* the Church could continue to outpace *doing* Church?

Join Auxano Navigators David Putman and Bryan Rose on [this week’s Better Future Webinar](#) as they present a brand-new training tool, the **Vision Recovery Process**. [In this two-part online training](#), attendees will learn:

- How to process the timing around three phases of disruption
- Key conclusions about disciple-making in a “new normal” of church life
- Five critical steps to recovering your church’s disciple-making vision
- Ten questions every church should ask every member this week

Part one will be Tuesday, April 14, at 11:00 am EDT / 10:00 am CDT, and part two will be on Thursday, April 16, at the same time. You don’t have to attend both, but we recommend [reserving a spot here](#) because space will be limited.

The last thing any of us needs is another talking-head driven ZOOM call, so Auxano promises that every [Better Future Webinar](#) will be super practical, immediately applicable, and founded on process tools that will make a difference in your leadership.

Thanks for you all you are doing for your congregation and community in this generation-marking season. [We hope to see you right here on Tuesday!](#)
