

Vision Recovery Process, Step 2: DEVELOP Your Strategy

Things are shifting everyday. The question everyone is asking, including your church, is when will everything get back to normal?

When will we get back to normal? No one knows. No one really even knows what the word 'normal' will even mean. What we do know it's going to take longer than we anticipate calling on us to prepare for the worst and pray for the best. Church leaders will need to consider three very distinct planning cycles. **The Disruption Timeline**, introduced in our Better Web Series on April 14 and 16, depicts three phases of planning that results in three unique planning rhythms.

In this week's Better Future Web Series, join Jim Randall and Kent Vincent to consider the potential of instilling a "new normal" within your congregation. Learn about the Vision Recovery Process, Step 2: **DEVELOP Your Strategy**, on April 21/23 11am EDT/10 am CDT. Register for this FREE webinar here: <https://auxa.no/2Xvbcj>
